Welcome to Modules Factory, we provide reliable services for WHMCS and bluehost system, we offer both custom and ready made modules.

Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured. They are either operated by Integrated Device Manufacturers (IDMs) that design and manufacture ICs in-house and may also manufacture designs from design-only (fabless firms), or by pure play foundries that manufacture designs from fabless companies and do not design their own ICs. Some pure play foundries like TSMC offer IC design services, and others, like Samsung, design and ma...

We skillfully integrate different subsystems and modules into one large system while ensuring that each integrated subsystem functions as required.
