

Wave Thought Tech Fiber Media Converter is a fiber transceiver with one 10/100/1000M Fiber Optical Port and one 10/100/1000Base-T (X) Adaptive Ethernet RJ45 Interface.

OTDR launch fiber boxes customized with up to 1km of any optical fiber type; maximum durability; 100% Made in USA.

It restricts the use of 10 hazardous materials in the manufacture of various types of electronic and electrical equipment: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls, ...

Our 10/100/1000BASE-T Copper SFP transceiver delivers versatile tri-speed Ethernet connectivity over existing Cat5/Cat6 cabling. Supporting auto-negotiation from 10 Mbps to 1 Gbps over distances up to ...

The module is compatible with 80% of networking equipment, where a special algorithm for protection against third party modules is not implemented. However, the SFP transceiver can be provided with ...

Reachoptics"1000M Media Converter supports IEEE802.3z 1000Base-Tx/Fx protocol, as well as full duplex and half duplex mode. This manual is for 1000M transceivers.

FiberMall SFP Fiber & Copper Module features up to 160km transmission over multi-mode and single-mode fiber from speeds of Fast Ethernet to Gigabit Ethernet.

Gigabit only switches can now be connected to 10/100 networks without the need to upgrade the 10/100 side, allowing network managers to add new equipment gradually.

In this article, we'll first clarify what 1000BASESX SFP actually means, then walk through why correct selection matters, which specs to verify, how to confirm compatibility, what fiber requirements to ...

This series of products uses a pair of single-mode optical fiber transmission, the center wavelength is optional for CWDM series 1271-1611nm (interval 20nm), the distance can reach up to 10km or 40km, ...
