

Complete range of 10G EPON Optical Modules (IEEE 802.3av). Shop Symmetric (10G/10G) and Asymmetric (10G/1G) OLTs and ONUs. Available in SFP+ and XFP form factors, covering PR30, ...

Superxon 10G ONU transceivers, compliant with SFP+ MSA, support single-fiber bi-directional data links with burst mode TX rates of 10G or 1.25Gbps and RX rates of 10Gbps. Hot-pluggable, 3.3V, and high ...

XG-PON, XGS-PON, and 10G EPON modules differ in data rates, symmetry, wavelength allocation, and more. The table below provides a clear comparison to help you understand their ...

This module can only be used on a device running V600R024C10 or a later version.

These 10G optical network terminals for fiber-to-the-premises applications can be managed remotely and are interoperable with the Cisco Routed PON solution. Three models offer a ...

Our EDGEOPTIC 2.5-10XGSPON-SFP-C is multi-vendor compatible XGS-PON/GPON Combo Class C+ single-fiber SFP+ optical transceiver designed for next-generation Optical Line Terminal ...

Gigaopto provides PON access networks with a series of 20pin SFP+, XFP, 22pin DSFP and 40pin SFP-DD form factor PON OLT optical transceiver modules that support both GPON and XG (S)-PON data ...

Over the years, fiber-based access has proven to be a cost-effective way to reach customer premises to deliver managed business and residential services. Ethernet or Passive Optical Network (PON) ...

The 10G Combo PON OLT module supports a flexible optics approach that allows for each of the eight faceplate ports to independently utilize multiple types of transceivers.

Framing is "G-PON like" but uses different wavelengths from G-PON (using a WDM to separate them) so that G-PON subscribers can be upgraded to 10G-PON incrementally while GPON users continue ...
