

2 broadband optical splitters

A fiber broadband provider typically determines and overall split ratio for the network, such as 1x32 or 1x64, and uses combinations of splitters to meet that ratio with each PON port.

The product family includes splitters from 2 to 32 output fibers. Packaging has been designed to provide stable optical performance across a wide operating temperature range.

FIBERONE offers a variety of optical splitters available for quick delivery to meet your project needs. This includes: Single mode optical splitters (1×2) - We offer FBT optical splitters available in a wide ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Discover a wide range of reliable fiber optic splitters. Our PLC and FBT splitters offer low loss and various split ratios for FTTH, PON, and CATV networks.

Amphenol Network Solutions offers a complete line of discrete Optical Splitter Components for a wide range of uses in various optical network designs. The product family includes splitters from 2 to 64 ...

PPC Optical Splitters are available for symmetrical splitting into 2, 4, 8, 16, or 32 divisions and can be cascaded to spread out splits into smaller, optimized serving areas.

Deploying compact FS PLC Splitters to simplify your networks, perfectly fits your PON, EPON, FTTH, etc.

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios. Buy optical splitters and passive ...

Thorlabs" 2x2 SM fused fiber optic couplers, also known as taps, allow a single fiber input to be split into 2 outputs or vice versa. These couplers are offered in narrowband, wideband, and dual window ...
