

Applications: BH-BBT-35KV 35KV heat shrink bus bar tubing provides high resistance to tracking and arching and used to enhance the insulation properties of bus bar in switchgear and substation.

35000 Volts Busbar Heat Shrink Tubing 35KV Overview Flame-retardant, soft, insulating, low-temperature shrinkage, halogen-free. Shrink Ratio: 2: 1 Longitudinal Change:  $\leq 10\%$  Voltage : 35000 ...

35kV high voltage busbar heat shrink tubing is widely used in the insulation protection of high-voltage switchgear busbars, thanks to its outstanding insulation performance and flexibility, effectively ...

3MTM Heat Shrinkable Tubing for Bus Bar BBI-A Series is designed for insulating rectangular, square and round bus bar rated from 5 kV through 35 kV. It will also cover and insulate inline bolted ...

Most of our heat shrinkable bus bar tubing covers and insulates rectangular, square or round bus bars, resists splitting and solvents, and provides excellent tracking resistance.

Get durable and reliable protection that helps prevent failures and downtime in applications from 5-35 kV. 3M(TM) Heat Shrinkable Bus Bar Tubing BBI-A covers and insulates rectangular, square or round ...

3M(TM) Bus Bar Heat Shrink Tubing BBI is a flame retardant tubing that provides reliable protection and insulation for 5 to 35 kV rated applications. The cross linked polyolefin construction is split and ...

Bus Bar Heat Shrink Tubing is designed for insulating rectangular, square and round bus bar rated from 1 kV through 35 kV. It will also cover and insulate inline bolted connections of rectangular bus bars. ...
