

4-port Fiber Optic Single-Mode Transceiver

Single-Mode Fiber-Optic Transceivers SEL single-mode transceivers convert EIA-232 serial ports to single-mode fiber-optic ports.

A complete point-to-point solution for transmitting Gigabit Ethernet over a single strand of fiber. Ideal for industrial, security, and long-distance IP networking applications.

The transceiver is available as a mini-GBIC form factor, making it ideal for environments that require many fiber connections by taking up less space in your cabinet and/or computer room.

Introducing the Altronix NetWaySP4P, a versatile 4-port fiber optic transceiver designed to enhance your network capabilities. This innovative device features four 1Gb SFP ports, allowing for seamless data ...

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.

TRENDnet's 4-Pack SFP Single Mode LC Module, model TEG-MGBS10/4, includes four fiber gigabit SFP modules that are compatible with standard SFP slots found on network switches and fiber ...

The Cisco QSFP 100-Gb SR1.2 Bi-Directional (BiDi) transceiver is a pluggable optical transceiver with a duplex LC connector interface for short-reach data communication and ...

Mouser offers inventory, pricing, & datasheets for Singlemode Fiber Optic Transmitters, Receivers, Transceivers.

Altronix NetWaySP4P2 Fiber Optic Transceivers provide four (4) 1Gb SFP ports and four (4) ports for up to 120W per port (240W total power) to be transmitted over composite fiber (powered) cable (fiber + ...

In this guide, you will learn what a single mode SFP transceiver is, how it works, the key specifications and types available, and where it is commonly used.

4-port Fiber Optic Single-Mode Transceiver
