

In optical fiber transmission system, it is used for multi-channel fiber monitoring, multi light source/detector selection, and optical fiber path protection etc.

Discover fiber switches designed for reliable network connectivity. Browse 10G, 2.5G, and gigabit options to expand your bandwidth.

F-Mix series is a high performance optical fiber matrix switcher product.

The IFB-244 Series is an industrial-grade optical fiber bypass switch with built-in 4 duplex LC or SC connectors featuring 2-channel duplex or 4-channel simplex fiber connection with optical bypass ...

We offer solutions that provide seamless transmission and conversion from Ethernet media to multimode or singlemode fiber. Our Ethernet network switches with fiber ports comes in managed or ...

The software controlled version of the new optical switch comes with drivers and GUI for operating the unit. It provides flexibility for switching to the target channel, as well as scanning options to follow any ...

Shop DigiKey's large in-stock selection of Fiber Optic Switches, Multiplexers, Demultiplexers. View inventory, pricing and order now for same day shipping!

We fusion spliced FC/UPC connectors on both two common ports, channel 10, and channel 40. We may fusion splice more connectors on other fiber channels at extra service fee.

This type of optical fiber switch generally uses mechanical positioning systems, where movement of optical fibers or other components relative to each other permits switching of light from input fibers to ...

M2 Optics offers cost-effective optical multicast switches for 40G, 100G, and wavelength-selective switching applications for your fiber optics network.
