

Fiber Optic Cable blowers from Condux International offer the latest in air assisted cable installation technology from the largest outside plant fiber cable down to micro cables and duct.

Safe, strong, smart: AIRJET blowing machines for fibre optic cables for all network levels

Elevate your fiber blowing jobs with our machines - effortless configuration and tool-free installation for maximum effectiveness.

MICROFLOW TOUCH Fully automatic fiber blowing machine that secures fast and reliable optical fiber blowing. Designed for air blown fiber and small fiber optic cables. Pricing does not include any extra ...

A fiber optic cable blowing machine is a specialized device used to install fiber optic cables into underground pipes. The machine uses air pressure, generated by a compressor or pneumatic motor, ...

Fully automatic fiber blowing machine that secures fast and reliable optical fiber blowing. Designed for air blown fiber and small fiber optic cables. Hydraulic cable blowing machine with a built-in electronic ...

Jetluber is a device that lubricates the optical fiber cable during fiber blowing. The unit is air-powered and works with a pre-equipped V2 or V3 Jetting machine.

Designed to be safe, fast and effective, the Tornado Cable Blowing Machine installs fiber optic cable into pre-installed innerduct or direct buried innerduct. A conversion kit allows the Tornado to place either ...

Air blown fiber systems use air to blow micro optical fiber cables through pre-installed microducts. Air blowing fiber, also known as jetting fiber, is an efficient way to install fiber optic cable and facilitates ...

Fiber blowers and cable blowing machines are used to install fiber optic cables through conduits using controlled air pressure. This method ensures smooth cable placement, minimizing friction and ...
