

Despite opposition, a socialist majority in parliament approved Prime Minister Edi Rama's cabinet - and with it the establishment of an AI server as a "minister";

Albania made waves in January 2025 when it introduced Diella, an AI-driven assistant built to help citizens navigate online government services through the e-Albania platform.

Prime Minister Edi Rama announced the appointment of Diella, a virtual intelligence system, as the world's first minister created by algorithms. The decision was historic not only for ...

For the first time, a global Albanian figure in technology -- Mira Murati -- is partnering with her country of origin to shape the future of AI. This partnership opens up opportunities for Albanian ...

From training large language models to running inference at scale, our AI-optimized servers provide the performance, efficiency, and flexibility your business needs.

Whether you're a teacher, researcher, founder, public servant, or student -- AI Albania is here so you can explore AI with guidance, community, and accountability.

Rama argued that the AI-generated bot will help the government work faster and with full transparency. It is one element in a larger plan to highlight the Balkan nation's technological ...

Albania has made global headlines in appointing "Diella", an AI system, as a cabinet minister. Hailed as a step towards digital governance, it has also drawn criticism over legality, ...

Diella (Albanian pronunciation: [djela], from diell "sun") is an artificial intelligence system developed by the National Agency for Information Society of Albania (AKSHI).

In September, Albania appointed an AI system to a cabinet-level position--a world-first. Called Diella (Albanian for "sun"), the system was declared "Minister of State for Artificial...

Rama argued that the AI-generated bot will help the government work faster and with full transparency. It is one element in a larger plan to highlight the ...
