

Albanian CE Certified DAC High-Speed Cable 10G

Our HPE Aruba J9281D DAC cable is CE/RoHS certified, meets product safety standards, and is compliant with SFP+ Multi-Source Agreement (MSA) SFF-8432 industry standard.

The SFP+ passive cable assembly is an upgraded version of small pluggable (SFP) interconnections up to 10Gbps. The system complies with the SFF (SFF-8431 and SFF-8432) specifications and supports ...

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

Automatic Assembly Line (DAC Cable) 10Gtek's automatic assembly line, assures the consistency of manufacture under the process of laser cutting, aluminum shielding stripping, isolator stripping, ...

FS DAC, AOC and AEC cables are most used in data centers and enterprise networks for switches, servers, and storage interconnects within a rack. With high ...

10G DAC cables are designed to support data rates up to 10 Gbps. They are ideal for high-speed data transfer tasks in data centers and networking environments, ensuring efficient and rapid data ...

Direct Attach Cable (DAC) Connectors meet the harshest external operating conditions including temperature, humidity and EMI interference. Final test and quality systems assure high quality cable ...

10Gtek focuses on developing high performance cable and transceiver solutions for data center, HPC and AI applications. The main products include Transceivers, Direct Attach Cable (DAC), Active ...

10Gtek's QSFP28 passive copper cable assemblies feature eight differential copper pairs, providing four data transmission channels at speeds up to 28 Gbps per lane, and meet 100G Ethernet and ...
