

We are a large-scale electromechanical installation materials enterprise specializing in the production of electrical control and power distribution cable trays and various accessories. Our main products ...

The company has strong technical team, has a large number of senior engineer and manager, and has developed a series of explosion-proof products, which represent the leading level of explosion-proof ...

It is the full name of the rigid structural system that supports the tight connection of cables. It consists of trough type, tray type or stepped straight section, curved type, tee type, four-way type. It is ...

BCZ8030 series Explosion-Proof corrosion-proof plug and connection BM (D)X52-S series Explosion-Proof illumination (power) distribution boxes(Full plastic enclosure)

Our high quality products include cable trunking, cable ladder, perforated cable tray, wire mesh cable tray, the matching accessories and switchgear cabinet, etc.

The XQJ series cable trays produced by our company are divided into eight series: steel and stainless steel ladder type, tray type, trough type, combined type, large span type, aluminum alloy, flame ...

The company has strong technical team, has a large number of senior engineer and manager, and has developed a series of explosion-proof products, which ...

Discover our cable tray products, offering robust and versatile solutions for any setup. Ideal for data centers and industrial environments, our cable trays enhance wiring infrastructure, ensuring optimal ...

We provide cable trays, metal trunking, C-shaped steel mounting brackets, hot-dip galvanized conduits, EMT metal wire boxes and other products for electronic control and distribution.

It can effectively protect the cable from dust, moisture, corrosion, fire, and other external factors. It can also effectively shield the electromagnetic interference generated by the cable, and improve the ...
