

Australian transparent optical cable 24 cores

The SM@RTCORE® range of fibre optic loose tube cables saves you space, time and money. It's easier to install and you can increase the number of fibres in a duct, lower the number of ducts needed or ...

24 Core S/M Loose Tube Nylon Jacket Sacrificial Sheath SKU: OSA-FSM-024LTSS [View Product](#) [CommScope](#)

Fibre optic cable with 24 core singlemode and loose tube design--ideal for high-speed data transmission. Built for telecommunications and networking, with a durable blue nylon jacket for added ...

Loose tube cable offers a cost-effective and rugged solution for medium and long distance external fibre runs. SERVEREDGE nylon jacket loose tube cable is available in OM3, OM4 and Single mode OS2.

This loose tube dielectric optical cable is designed for external underground installations in ducts by pulling, jetting or floating techniques or by underground usage as per Australian standards.

With a small diametral core, in a single mode fibre optic cable only one ray or mode of light is able to propagate at a time. All the signals travel straight in the middle without distortion including modal ...

A termite resistant loose tube cable featuring a non-metallic strength member, gel filled tubes and a dry block core, for use in both direct bury and conduit/duct applications.

A rodent and termite resistant loose tube cable featuring Corrugated Steel Tape Armour, non-metallic strength member, gel filled tubes and a dry block core, for use in both direct bury and conduit/duct ...

Available from stock in 6 and 12 core configurations, and in 24 core with a minimum order quantity of 2000 metres, this cable is ready to meet the demands of modern fibre deployments with speed and ...

Explore AFL Australia's range of fibre optic cables, including loose tube, armoured, ADSS, and tactical designs. Engineered for durability, performance, and diverse applications.
