

Azerbaijan Relay Protection Tester Direct Sales

The SMRT410D is a multipurpose, light-weight, field portable test set capable of testing a wide variety of electro-mechanical, solid state and microprocessor-based protective relays, motor overload relays, ...

The tester operates directly from the car battery, eliminating the need for additional batteries. It features alligator clips for easy connection and provides quick, reliable tests. A red LED indicates abnormal ...

With its large, full colour, high resolution, TFT LCD touch screen, it allows you to perform manual, steady-state, and dynamic testing quickly and easily using the manual test screen, as well as using ...

The RELAYSTAR-1200 is an excellent choice when you want higher current and power output (6x0...40A, 6x300VA; 1x0...240A, 1x1000VA) for testing high-burden electromechanical relays. The ...

Megger SMRT46 MULTI-PHASE RELAY TESTER Relay and protection testing

Location, testing, diagnosis of faulty cables, protective relays, relay protection systems, testing of high and medium voltage circuit-breakers, testing and diagnosis of transformers, low-voltage equipment, ...

* 12V Car Relay Tester - Compact & Portable, Automatic Coil Detection, for 4/5-Pin Relays, 11V-15V Battery Powered, Red with Black Accents, Ideal for Vehicle Electrical Diagnostics

We design and manufacture a wide range of electrical test equipment, including solutions for testing protection relays, testing solutions compliant for IEC61850 environments, voltage and current ...

Adopt reasonable design of heat dissipation structure, and have reliable and perfect protection measures, soft start of power supply, and certain fault self diagnosis and locking function.

This section reviews several different factors in selecting and managing your distribution and sales in Azerbaijan.
