

FiberTech Optica delivers fiber optic bundles to meet almost any requirement. With virtually no limit on the number of fibers, all of our fiber optic bundles can be configured as spot, line, grid, hex, or ...

XSOFT designs and manufactures high-performance fiber optic bundles and arrays tailored to your specific requirements. Our assemblies are composed of multiple optical fibers, providing enhanced ...

Fiber optic bundles consist of multiple optical fibers grouped together to transmit light signals simultaneously. These bundles are integral to various applications, including imaging systems, ...

2-D fiber optic bundle, or fiber bundle optics, such as the linear fiber bundle, uses flat-bottom groove and lid to stack multiple fibers tightly together in a rectangular or circle arrangement.

We use aramid yarn (Kevlar) to enhance the strength and durability of our single mode fiber optic cable, ensuring it can withstand tough conditions. Combined with high-quality optical fibers, our cables offer ...

Discover a vast selection of single mode and multimode fiber optic cables, as well as bundled fiber optic cables, with customizable options for length, connectors, and jacketing.

Sumitomo Electric Lightwave's OS2 Single-Mode Fiber Bundles are designed for installation into the FutureFLEX[®]; Air-Blown Fiber[®]; tube cable infrastructure. They can be used in indoor and outdoor ...

VGA series V-Groove array assemblies are available with single mode (SM), multi mode (MM) or PANDAtype polarization maintaining (PM) fibers. Customization can even include different types of ...

Fiber optic bundle cable, also known as pigtail bundle, only has a connector at one end, while the other end is a fiber break. It is used to connect fiber optic cable to terminal equipment.

OS1 single mode fiber optic cables are made with a single mode fiber core, which means that they have a very small core diameter of 9 microns. This allows the cables to transmit data over much longer ...
