

# Burundi 10 Gigabit Single-Fiber Bidirectional Optical Module

Operating with Tx1270nm/Rx1330nm wavelengths and 6.2 dB link budget, this 10G BiDi module delivers reliable 10km connectivity over single-mode fiber. Supporting multi-rate operation from 1.25 to 11.32 ...

The SFP BiDi 10G 40km module offers a powerful solution by enabling 10 Gbps full-duplex communication over a single strand of single-mode fiber (SMF) for distances up to 40 kilometers.

Compared with traditional duplex LC modules, the SFP-10G-BX transmits bidirectional signals over a single fiber via a Simplex LC connector. This significantly reduces fiber consumption ...

Explore how 10G BiDi SFP+ modules enable high-speed, bidirectional data over a single fiber, cutting costs, saving fiber, and simplifying network deployment.

10G SFP+ BiDi 10~80km Single-fiber Bidirectional Transceiver Module (Industrial Grade Optional)

Compared with traditional duplex LC modules, the SFP-10G-BX transmits bidirectional signals over a single fiber via a Simplex LC connector. This ...

This optical module, employing wavelength division multiplexing (WDM) technology, can achieve 10Gbps bidirectional data transmission with just a single fiber, ...

EnGenius SFP3312-20A BiDi Transceivers are versatile, hot-swappable optical modules designed for 10 Gigabit Ethernet applications across various switching ...

Operating with Tx1270nm/Rx1330nm wavelengths and 6.2 dB link ...

Learn what SFP+ BiDi 10G is, how single-fiber 10G transceivers work, key specs, use cases, and how to choose the right BiDi module.

This optical module, employing wavelength division multiplexing (WDM) technology, can achieve 10Gbps bidirectional data transmission with just a single fiber, directly doubling the utilization of ...

EnGenius SFP3312-20A BiDi Transceivers are versatile, hot-swappable optical modules designed for 10 Gigabit Ethernet applications across various switching and routing platforms.

10GBASE-BIDI Bidirectional SFP+ to single LC Optical transceiver module, Single Mode, Wave length: Up: TX1270nm/RX1330nm; Down: ...

# Burundi 10 Gigabit Single-Fiber Bidirectional Optical Module

10GBASE-BIDI Bidirectional SFP+ to single LC Optical transceiver module, Single Mode, Wave length: Up: TX1270nm/RX1330nm; Down: TX1330nm/RX1270nm, DDM, up to 20km over ...

The 10G BIDI SFP+ optical module is an optical module using WDM (wavelength division multiplexing) bidirectional transmission technology, which realizes bidirectional transmission in the optical channel ...
