

# Cable tray 20mm conduit fittings

Cable Tray and Fittings A cable tray system is used to support insulated electrical cables used for power distribution, control, and communication. Cable trays are used as an alternative to open wiring or ...

Refers to the approximate height of a cable tray used for specifying. Selecting a specific height will show cable trays with that height, as well as cable tray accessories compatible with that height.

Time-tested, field-proven conduit raceway and supports, cable tray and ladder systems, fittings and cable glands that provide pathways for moving power simply and safely in any electrical installation

These are the most corrosion-resistant tray systems we offer for routing cable and hose in configurations such as curves, slopes, and tees. Cut, bend, and connect the wire mesh trays.

Mayer is your trusted source for Accessories & Fittings for Cable Tray.

As a less-expensive alternative to conduit, a stronger alternative than wire basket, and superior to generic tray, Snap Track saves on labor and reduces total installed costs.
