

Cables don't always run in a straight line, and flexible and highly pliable polyurethane SFX cable markers are designed for just this purpose. The marker follows each curve of the cable and latches ...

Submittals for cable ladder and tray Eaton's submittal builder tool for B-Line series cable ladder and tray allows you to easily filter, select and download straight section, fitting and accessory submittals.

Some applications may require the cable tray to support the weight of a single, dead object in addition to the cable loads. Specifications typically require this to be applied at the midpoint of the span between ...

MS-478 Cable Tray Markers are the ideal solution for labeling smooth-sided cable trays. Designed with maximum service life in mind, they are an excellent choice for harsh environments.

When fitting cable trays and their accessories, the products are cut on site to create changes of direction, adjust sections, etc. Damage can also occur during handling; as a result, both the ...

Transparent snap-on marker sleeves that snap directly onto a cable without the need for a cable tie. Suitable for retrofitting markers to existing cable runs without disturbing the wiring. The snap-on ...

As a less-expensive alternative to conduit, and a stronger alternative than wire basket, and superior to generic tray, the Snap Track cable tray system saves on labor and reduces total installed costs.

HellermannTyton offers a wide range of products for industrial identification and cable marking.

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.
