

Nexconec &#174; 40G QSFP+ SR4 Transceivers are designed for use in 40 Gigabit per second links over multimode fiber. They are compliant with the QSFP+ MSA and IEEE 802.3ba 40GBASE-SR4.

FS 40G QSFP+ optical transceiver module solutions offer a full range of QSFP+ modules from 150m to 80km reach, and used for high-density switching, routing and data center applications.

40G QSFP Optical Transceiver provides 40Gbps speeds over a distance of up to 80km over SMF (with DCM and EDFA).

40G QSFP+ BIDI optical transceiver module is a pluggable optical transceiver with a duplex LC connector interface for short-reach data communication and interconnect applications using Multi ...

It ensures a maximum reach of 10km over ordinary single-mode fiber. This 40G LR4 transceiver is ideal for complex, high-density network conditions because it maximizes performance and reliability by ...

40G Transceivers by JTOPTICS deliver high-speed optical data transmission and are ideal for data centers, enterprise networks, and telecom applications. Engineered for reliability and scalability, ...

Find 40G optical transceivers that meet your system and network needs, including QSFP+ and a variety of cables enabling 40Gb/s Ethernet speeds.

The JFOPT QSFP+ 40G CWDM4 2km LR4L LC DX transceiver modules are designed for 40 Gigabit per second links over single-mode fiber, compliant with the QSFP+ MSA and IEEE 802.3ba ...

All Extreme&#174; compatible 40G transceiver modules are certified for functionality, reliability and performance under rigorous testing parameters. Every 40G is RoHS and MSA compliant and built ...

Our 40G QSFP-40 transceiver is CE/RoHS certified and compliant with Class 1 FDA and IEC60825-1 laser safety standards. Primary deployment scenarios include metropolitan area network backbones, ...
