

## China Telecom and China Unicom fiber optic cable relocation

The \$500 million project, led by China's HMN Technologies, will connect Asia, the Middle East, and Europe. Major Chinese telecom carriers, including China Telecom, China Mobile, and ...

China Telecom and China Mobile pulled out of the project after SubCom won the contract last year and, along with China Unicom, began planning the EMA cable, the four people involved said.

The proposed cable would link Hong Kong to China's island province of Hainan, before snaking its way to Singapore, Pakistan, Saudi Arabia, Egypt and France, the four people said.

Chinese state-owned telecom firms, China Telecom, China Mobile, and China Unicom, are developing a \$500 million undersea fiber-optic internet cable network that would link Asia, the...
