

Congo manufacturers SFP optical module 200G

10Gtek's 200G QSFP56 FR4 transceiver module is designed for use in 200 Gigabit Ethernet links over 2Km single mode fiber. The module has 4 independent electrical input/output channels operating at ...

The 200g QSFP56 modules produced by SULITON are suitable for most switch brands on the market, such as MSA, Cisco, Huawei, Juniper, Dell, Edge-Core and other switches.

The R& D and production processes strictly follow the fiber optical module production specifications, and strictly control the inspection process to ensure product quality. At the same time, we can provide ...

The company specializes in the R& D, intelligent manufacturing and sales of passive components and active modules for optical communication. Meanwhile, it delivers customized ...

This transceiver consists a transmitter/receiver unit operating on a set of 4 wavelengths on the ITU G.694.2 CWDM grid near 1300nm or 4 channels 850nm wavelength. The electrical interface of the ...

10G, 25G, 40G, 100G, 200G, 400G, 800G optical module manufacturers, FIBERTOP optical module manufacturers professional manufacturing for 15 years

200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall

Discover how QSPTEK helped PacketStream engineer a reliable 200G DWDM network over 36km using 25G optics, overcoming 100G module scarcity. In this case, QSPTEK engineers created a 10 ...

The Vchung 200G QSFP-DD LR4 is a pluggable optical transceiver module designed for next-generation data center optical interconnects, and supports 200GBASE-LR4 Ethernet links reach up ...

The 200G-QSFP-DD-SR8 NRZ 100m optical transceiver (GQD-MPO201-DSR4C) is designed for 2x 100GBASE-SR4 Ethernet links reach up to 70m (OM3) or 100m (OM4) over Multi-Mode Fiber ...
