

Connecting two switches with one fiber optic cable

In cases where the distance between switches exceeds the total cable length, you can use the LC-LC coupler to connect two fiber optic cables together. For example, insert the connector ...

At this point, I have a separate "dumb" switch to do this and separate cabling, but at our new location, this isn't easy to do, as I have to deal with 2 separate buildings, so I would need to pull ...

Can two switches with fiber ports be directly connected through fiber ports? The answer is yes. The mainline of the fiber optic LAN directly connects to the switch, then to the router. The connection ...

When connecting terminated duplex fiber optic cable between two network switches, ensure the connections are reversed between the SFP transceiver ports (connection A to B and B to A). SFP ...

Always integrate duplex (two strand) fiber optic cabling or higher strand counts. Most modern SFP transceiver modules feature duplex LC connections. Terminate your fiber optic cabling with two LC ...

I need to connect 4 Floor Building with 4 Cisco 2960 - 48 ports switch each other and it needs to be through a fiber. So all PCs connected to each switch would reach the LAN/WAN from ...

There is no need to get extra IP, it doesn't really solve some potential issues. The easiest way to do is, terminate your ISP connection to single router with at least 2 independent LAN interfaces, then you ...

Whether you are upgrading your network or setting up a new one this step by step tutorial will help you make the right choices.

If you want to achieve the highest speed and distance in the cabling between two or more switches, without a doubt, the best option is the fiber optic connection and using the SFP or SFP + ...

Each patch cable was "ab" to "ba", and two of them together (one on each end) was causing this issue. I was able to separate the LC/LC connectors and swap one end to make the ...
