

Through military action in Venezuela and threats of tariffs on Mexico, the Trump administration has shut off the flow of oil to Cuba, attempting to strong-arm the communist-run island ...

Contact Optilab for more information and pricing options. The Optilab DML-1550-PM-M is a directly modulated laser (DML) module with Polarization Maintaining fiber output at 1550 nm. The module ...

Cortina family of Optical Line Terminal (OLT) SoCs completes the end-to-end solutions for EPON and 10G-EPON applications. Our silicon devices have been interoperability-tested, field-proven and ...

GN25L81 is a combined a 2.5Gbps DML Driver and dual rate 2.5/1.25Gbps burst mode limiting amplifier for Fibre-To-The-Room (FTTr) and gigabit passive optical network (GPON) optical line terminal ...

The US and Cuba have had strained relations for decades, stemming from the island's communist revolution and the disastrous Washington-backed Bay of Pigs invasion in 1961.

Cuban Foreign Minister Bruno Rodriguez warned that the United States is on a "dangerous path" that could lead to a "bloodbath in Cuba" in response to President Donald Trump's continued ...

The Optical Line Terminal (OLT) is a crucial component in the Passive Optical Network (PON) architecture, which is widely used for delivering high-speed broadband services. In this essay, ...

Cuba crisis explained: Who holds power, and could Diaz-Canel be replaced? As Cuba faces one of the worst humanitarian crises in its history, questions have emerged about the island's ...

GN25L99 is a combined a 2.5Gbps DML Driver and 1.25Gbps burst mode limiting amplifier for gigabit passive optical network (GPON) optical line terminal (OLT) applications. The laser driver provides ...

A gigabit passive optical network (G-PON) comprises optical line terminals (OLTs) and optical network units (ONUs), and Murata's lineup of products for use in OLTs is introduced here.

Cuba, country of the West Indies, the largest island of the archipelago, and one of the more-influential states of the Caribbean region. A multicultural, largely urban nation, it has been ruled ...

An optical line termination (OLT), also called an optical line terminal, is a device which serves as the service provider endpoint of a passive optical network.

An optical line termination (OLT), also called an optical line terminal, is a device which serves as the service

provider endpoint of a passive optical network. It provides two main functions: 1. to perform conversion between the electrical signals used by the service provider's equipment and the fiber optic signals used by the passive optical network.

China urged Washington on Tuesday to immediately end its embargo and sanctions on Cuba, saying the expanded measures were "illegal" and "seriously violated" the norms of ...

Contact Optilab for more information and pricing options. The Optilab DML-1550 ...

The deepening economic crisis that has gripped Cuba for the past six years -- intensified by the energy embargo enacted under U.S. President Donald Trump -- continues to disproportionately affect the ...
