

Direct supply from Japanese manufacturer of low-noise optical circulators

Discover our C+L band optical circulator with low insertion loss, high isolation, and reliable performance. Perfect for optical amplifiers, dispersion compensation, and bi-directional communication.

Optical Circulator of Kohoku Kogyo are published on this page. This product has an optical circulating function.

Fiber Optic Circulators Features: o Low insertion loss o Miniature packages o High power handling o Wide wavelength range o Low cross talk o Center wavelengths 780, 850, 1060, 1310, 1480, 1550 nm o Low ...

LNF-CIC4_12A - RF & Microwave Circulator from Low Noise Factory. Get product specifications, Download the Datasheet, Request a Quote and get pricing for LNF-CIC4_12A on everything RF.

Corephy's Three-port 1x2 Polarization Insensitive Optical Circulator allows light to travel in only one direction. A signal entering to Port 1 will exit Port 2 with minimal loss, while a signal entering Port 2 ...

Our No-Tail circulators mount easily to optical tables and can withstand frequent handling. Four strong magnets hold the rugged package securely onto steel surfaces.

All Cryogenic Low Noise Amplifiers Room Temperature Low Noise Amplifiers Cryogenic Isolators/Circulators Accessories

OptiWorks" optical circulator is based on crystal technology. CIR features high extinction ratio and low insertion loss. These products utilize hermetic and all glass assemble technology to provide excellent ...

The excellent characteristics of this product make it an ideal choice for application in fiber amplifier systems, pump laser diodes, and optical fiber sensors. It is possible to produce a circulator with ...

Looking for high-quality optical circulators? GKER Photonics Co., Ltd. offers a range of reliable solutions for your optical networking needs
