

The Samtec 25/28 Gbps FireFly(TM) FMC+(TM) Module supports Data Center, High Performance Computing, and FPGA-to-FPGA protocols including Ethernet, InfiniBand(TM), Fibre Channel, and ...

Optical passive components from individual isolators, couplers and PM components, to multi-function integrated components such as isolator with WDM, isolator with PM Beam Combiner, and circulator.

Explore the working principles, structures, and performance metrics of optical modules, essential components of optical fiber communication systems. Learn about key indicators such as average ...

Powering the Optical transceivers & Hardware used in the most advanced Telecom and Datacom Infrastructure Solutions for All Optical Modules for Today's and Future Generations

Build high-performance and power-efficient optical modules for wireless, data center and communication applications with our optical networking ICs. Our products simplify designs by integrating ...

Eoptolink is a leading domestic manufacturer of optical modules and transceivers, widely used in data centers, AI training clusters, and 5G/6G networks. The performance, power efficiency, and reliability ...

Optical control solutions including precision integrated controllers, converters, high-voltage converters, linear amplifiers, and log amps to enable our customers to design higher data rate, lower ...

CMIS-VCS is a supplement IA to CMIS base. It provides an extended list of SI parameters while reusing the same banked pages defined in CMIS base (Pages 10h/18h, 11h/19h). The host reads the ...

Luna offers a complete line of high performance active and passive fiber optic modules and components for a wide range of fiber optic systems, including interferometric systems for fiber optics sensing, fiber ...

This white paper introduces a control paradigm for optical modules that decouples optical layer control from packet layer control and thus, from host software and packet controller software ...
