

# Dual Fiber Optic Outlet Panel

Secure your fiber optic installation with this double-door wall mount patch panel. The steel construction & integrated key lock protect up to 2 adapters safely.

The FTWM2 mini wall mount fiber patch panel can support up to 2 optical fibers with both SC and SC APC duplex adapter types supported.

This plastic indoor fiber optic terminal box has a latching top for easy access and accepts up to 2 fiber optic panel mount couplers. It is used to interconnect fiber splices and terminated fiber cables. The ...

The wall mount interconnect fiber enclosure (FWME2) is ideal for storage, protection, termination, and splicing of optical fiber cables in applications with minimal mounting space, such as ...

This wall-mount fiber optic outlet box provides end-users with a fiber cable termination solution in FTTH, FTTO, and FTTB networks. Our fiber wall socket outlets are suitable to fix SC, ST, FC simplex, and ...

This 2 port indoor Wall Mounted Optical Fiber Distribution Box FTTH Termination Box is used for splicing and termination between indoor SC LC FC fiber optic cable and pigtails. used for wall mounted to ...

This 2 port wall mount fiber termination box is a professional enclosure designed to terminate and protect optical fibers in FTTH networks. It typically serves as an indoor termination point, connecting ...

Explore CommScope's efficient and scalable fiber splice panels designed for seamless connectivity. Accommodating LC, SC, and MTP/MPO connectors, these panels are ideal for data centers, ...

Engineered for seamless integration between indoor fiber optic cables and pigtails, this socket panel is compatible with SC, LC, and FC connectors. It is ideal for wall-mounted or desktop installation in ...

This wall outlet box is for joining fiber optic cable and pigtails. They protect fiber optic splices and are ideally used for telecommunications industry.
