

E-2000™ is an optical fiber plug connector, available for both single mode and multi-mode applications, featuring a spring-loaded shutter and dust-cap. The E-2000 Connector series is a type of fiber optic ...

- Through its precision ferrule and its tuning with excentricity limit smaller than DINEN 61755-3-2 grade B specification, our E-2000™; HRL category 0.1 dB reaches lowest insertion loss IL and highest return ...

The E-2000™; ETO connector is a sterilizable, non-magnetic fiber optic solution tailored for medical and MRI environments. Engineered with DIAMOND SA's signature precision, it offers exceptional optical ...

E2000 Connector Features: According standard:IEC61547-15?EN186270 Dustproof,Anti-light leakage Standard plastic body,good interchangeability

This E-2000/PC connector offers a spring-loaded shutter mechanism that protects the ferrule end-face from scratches and dust while blocking out potentially eye-damaging laser radiation.

The E-2000(TM) Connector offers a spring-loaded shutter mechanism that protects the ferrule end-face from scratches and dust while locking out potentially eye damaging laser radiation.

Our Connectors are the key components for a low loss, broad-band data transmission in fiber optic networks. The constantly growing demand for higher data transmission capacities places ...

The E-2000(TM) connector is the most mechanically robust FO connector. Combined with R& M's quality requirements for raw materials, design, and workmanship, it guarantees the most stable transmission ...

mechanical and optical interfaces, the E-2000™ fiber optic connector family can cover the most standard and cus-tomized requirements in response.

The E-2000 is an optical fiber plug connector with push-pull locking mechanism and a self-closing dust protection flap. The connector is available for both singlemode and multimode applications.
