

Fiber optic cable heat shrink tubing protective sleeve

Corning offers a variety of splice protection choices to meet your needs. All the types of protection allow individual fiber access in the splice tray. Corning offers heat-shrink protection in both single-fiber and ...

Need to protect and reinforce a fiber optic splice? Our Fusion Protection Sleeves will help you seal splices against moisture and contaminants. For the ultimate in protection, see our full range of sleeves.

Steel or all-dielectric heat shrink sleeves by Corning, Raychem, Mooseline. Single or ribbon fiber splices. 1.5, 2.0, 3.0mm in diameter, 25, 40, 60mm in length.

These slim, tube-like sleeves are designed to protect and secure the splice points where two fiber optic cables are joined. Optical fiber heat shrink tubes are used to protect or connect optical fibers.

SMOUV Fiber Optic Splice Heat Shrink Protective Sleeve for 12 fiber ribbons (See Specs for packaging size and MOQ)

Discover premium fiber optic splice protection sleeves. Engineered for durability, our heat shrink sleeves ensure long-term protection for critical fusion splices.

Application of a heat shrink splice protector immediately after fusion splicing will protect the spliced optical fibre during installation, handling and storage for many years of the fibres lifetime.

Heat Shrinkable Tube consists of transparent heat shrinkable casing (Outer tube), clear hot melt tube (inner tube) and 304 stainless steel rod (reinforcing rib), it is specially designed for optical fiber fusion ...

The hot-melt adhesive inner tube bonds to both the fiber and the heat shrinkable outer tube to encapsulate the fusion splice joint and provides vibration damping and an environmental seal, ...
