

Fiber Optics Cleaving and Stripping Tools available from StockAMS Technologies offers the full range of must-have tools for field or production - including processing and preparation tools for several types ...

We offer a wide selection of specialty fiber optic installation tools and equipment from the leading brands to meet the needs of any fiber installation, maintenance and troubleshooting job.

Our cutting-edge fiber stripping equipment is specifically designed for fiber optic coating removal, and we offer a comprehensive range of options. Discover our proven line of high-strength thermal ...

Our fiber strippers provide a reliable way for you to remove the buffer from an optical fiber. We have one of the largest varieties of strippers in stock to help you do your job.

This machine strips single fiber in a semi-automatic fashion without touching the glass fiber. The FiberStrip 7030 is designed for stripping single coated and buffered fibers.

With preset factory settings and no adjustments required, this fiber optic stripper is designed to strip 250µm buffer coating to expose the 125µm optical fiber in fiber optic cables.

Fiber strippers are precision tools that reliably and cleanly remove a defined length of coating (often 30-40 mm) from a fiber end so that the bare glass is exposed without scratching or nicking it.

Semi-automatic fiber-stripping machines enable precise and efficient processing of coated, buffered, and jacketed glass fibers. Designed for reliability and repeatability, these machines ensure high-quality ...

Shop optical fiber and cable strippers including buffer, thermal and standard stripping tools from trusted brands like AFL, Fitel, Jonard, Miller and more!

The AFL Precision Strip Tool is a fast, simple, and accurate solution for stripping fiber without damage. It is battery-powered and portable, making it ideal for use in the field. The tool has an ergonomic ...
