You rent physical rack space in a professional data center (power, cooling, security, network), while you own the servers. It's a step up from office closets and shared hosting--more control, better reliability.

With our build-to-suit data centers, you can design and customize a data center solution to meet your specific needs, without the expense of building your own data center.

Need a custom server rack cabinet? Eaton can quickly build the rack enclosure or open-frame rack that meets your exact specifications, schedule and budget.

Call, click or chat with our in-house team for a fast quote or help designing a custom rack solution. From cage nuts, to data center design, we do it all at Rackmount Solutions.

Affordable server colocation with unmetered bandwidth, 1Gbps ports, and 24/7 support. Plans start at \$65/month. Ship your server and get online fast with Sectorlink.

Colocation pricing refers to the cost structure for renting physical space in a third-party data center where businesses can house their own servers and networking equipment.
