

Fiber optic splice trays are designed to provide a location to store and to protect the fiber cables and the splices. Each tray provides space for mounting fiber splice protectors and excess fiber. It's divided ...

Lightweight, compact, and stackable this 12 position fusion splice tray will fit most fiber optic patch panels. This tray allows for easy storage and organization of splices.

Fiber splice trays for Corning, PLP, AFL, Multilink enclosures. Holds fusion or mechanical splice sleeves. Coyote, Starfighter, Lite-Grip, Type 2S, 2R, 2M, 4A, 4R, 4S, and more.

Learn what a Fiber Optic Splice Tray is and why it's critical for FTTH network reliability. Discover how to choose the right tray capacity, material (ABS/PC), and structure (Hinged vs. ...

The hinged cover and carefully designed fiber routing enable quick and easy ...

Fusion splice trays organize and protect spliced fibers, ensuring secure management in enclosures and fiber distribution systems.

The Multi-function Series of Optical Fiber Splice Trays are designed to safely route and store optical fiber and associated splices. The trays are fully compliant to industry specification Telecordia™ GR ...

Learn what a Fiber Optic Splice Tray is and why it's critical for FTTH network reliability. Discover how to choose the right tray capacity, material ...

The black powder coating allows easy fiber identification and additional protection. Designed for use with Corning interconnection hardware and splice closures, these splice trays are an integral part of a ...

The hinged cover and carefully designed fiber routing enable quick and easy splicing and fiber management. The stackable design of this 7 inch tray, saves space while ensuring maximum density ...

The hinged cover and carefully designed fiber routing enable quick and easy splicing and fiber management. The stackable design of this 7" tray, saves space while ensuring maximum density for ...

Made of high-quality ABS plastic, the tray is lightweight yet durable, designed to withstand daily handling and long-term deployment. Designed with a controlled bend radius and organized routing paths, it ...
