

Low cost, spectral measurement in a compact module with built-in analysis for: SMSR, OSNR & spectral width. Targeted wavelengths for specific applications in O band, C band & L band.

It is a cost-effective, low power LAN-WDM optical transceiver with high port densities and compact size, suitable to be used in various applications, such as data center, high-performance computing ...

Guanglian is dedicated to research, development, manufacture, and market high-speed and high-performance optical transceiver modules and optical components for various ICT applications, such ...

High-speed and high-performance optical transceiver modules and optical components for various ICT applications, such as Data Center, Telecom Networks, Security Monitoring.

A: Absolutely, our expertise in custom CNC machining is unparalleled, adept in crafting non-standard hardware parts for niche markets, including aerospace fasteners, medical device components, and ...

Guanglian's 400GBASE-SR8 optical transceiver module supports link lengths of up to 100m over multimode fiber (MMF) with MTP/MPO-16 connector. It is compliant to IEEE 802.3bs protocol and ...

Shanghai Honghui Guanglian Communication Technology Co., Ltd., located in Jiading District of Shanghai, was established in September 2000. The company specializes in manufacturing and ...

Guanglian 10g optical-to-electric converter (enhanced edition): more than just a "converter," it's your gateway to 10 gigabit connectivity in your home.
