

The H3C S7503X, part of the H3C S7500X switch series, is designed for next-generation enterprise core networks. This advanced switch supports high-density, high-performance environments, and delivers ...

Discover new levels of network performance, reliability, and scalability across data center, campus, and branch networking with the HPE Comware family of switches and routers based on h3c Comware ...

H3C industrial switches can operate in -40°C - 75°C environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic ...

In the new generation of cloud data center and smart campus scenarios, H3C new generation of intelligent, ultra-wideband, simple, and integrated network is created for users, which is applicable to ...

Switches H3C S12500X-AF is a new generation chassis switch product developed by H3C for high-density 40G/100G/400G data center core network applications.

H3C S7500X-G is a high-end multiservice routing switch series designed to deliver exceptional service convergence experience.

Explore all H3C switches including S9850, S6520X, S5560X, S5130S, S1600V2, and more. High-performance, secure, scalable enterprise networking.

H3C switches are cost-effective, Comware-based networking devices used in campuses, data centers, and SMBs -- but they differ significantly from Cisco, Huawei, or Arista in management, ...

These switches integrate seamlessly with H3C's broader ecosystem of routers, security solutions, and cloud platforms. The H3C S5850 and S6800 series switches are advanced, high-density Ethernet ...
