

The H3C Next-generation AI Storage Polaris Series, offering an efficient AI storage solution through performance acceleration, intelligent O& M, data pooling, intelligent acceleration, ...

Following the legacy of the G5, this server emerges as a quintessential benchmark for quad-socket server advancements. Perfectly suited for mission-critical, data-heavy applications, it excels in large ...

The H3C UniServer G7 series is equipped with an endogenous AI operating system and a newly upgraded intelligent management center, ensuring more stable and efficient system operation.

Discover the Power of #H3C #AIServer: The Uniserver R5300 G6 transforms AI workloads with its tripled computing performance and lightning-fast 400G network card.

H3C is committed to becoming the most trusted partner of its customers in their quest for business innovation and digital transformation. We offer a full portfolio of digital infrastructure products, ...

Discover the latest H3C server models for AI inference, fiber-first networking, and scalable enterprise solutions. Explore top picks for performance, modularity, and cost efficiency.

H3C's sub-brand Aolynk, designed specifically for SMB (small and medium-sized business) in global markets. An ultra-compact, palm-sized AI productivity tool designed to handle inference for 200B ...

The H3C UniServer R4900 G6 Ultra Server is a 2U, two-socket rack server independently developed by H3C based on the 4thGen Intel®; Xeon®; Scalable processors. Highly suitable for ...

The H3C next-generation AI storage, the Polaris X20000 series, completely reconstructs the storage software stack through collaborative software and hardware innovation.
