

High-sensitivity fiber optic sensor from the UK

Shop our range of Fibre Optic Sensors supplies & accessories. Free Next Day Delivery. Browse our latest Fibre Optic Sensors offers.

The Fibre Strain Sensor is the fibre optic equivalent of an electrical strain gauge. The single sensor can be mounted directly to the structure under test by means of a suitable adhesive or as a chain of ...

We are fabricating sensors in sapphire optical fibre which can withstand temperatures of up to 2000 °C. These also have the advantage of being radiation hard and extremely chemically resistant.

The selection of the right fiber optic sensor and the suitable fiber optics are crucial for reliable object detection even under demanding environmental conditions.

FiberLogix designs, manufactures and innovates fiber optic sensors and fiber sensing products for clients across the UK.

Buy Fibre Optic Sensors. Farnell's UK offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

KEYENCE UK provides Fibre Optic Sensors; Perform high-performance, high-speed detection with optical fibres designed to be used in a variety of environment conditions.

Sensornet has vast experience in designing and manufacturing cables that achieve the balance between sensitivity and protection for a range of different industrial sensing applications.

These are reliable and easy-to-use devices that have high power, can automatically adjust to real-time conditions, and have a straightforward display that eliminates any guesswork. This series is able to ...

Professional technical support for fiber optic security systems ensuring continuous perimeter monitoring, system calibration, and immediate response to any fiber sensor issues.
