

Huawei 10 Gigabit Core Switch Parameters

Each S6300 provides a maximum of 48 line-speed 10GE ports. S6300 ports support 1GE and 10GE access and can identify optical module types, maximizing the return on investment and allowing ...

10G case-shaped switches. The S6700 has an industry-leading performance and provides up to 24 or 48 line-speed 10GE ports. It can be used in a data center to provide 10 Gbit/s access to servers or ...

This switch features diversified security control, rich management methods, higher performance, and extended service processing capabilities. Therefore, it can be widely used as a core or aggregation ...

S6720-HI series full-featured 10 GE routing switches are Huawei's first IDN-ready fixed switches to provide 10 GE downlink ports as well as 40 GE and 100 GE uplink ports.

The 10Gb/s Switch provides sufficient bandwidth to support the transmission of high-definition and 4K videos, making it suitable for scenarios such as broadcasting stations and video ...

Based on Huawei's VRP OS, the series delivers OSPF, BGP, RIPng, IS-IS, VRRP, and ECMP. Capacity of 2.4 Tbps with 490 Mpps enables great route handling and internal scaling. With ...

Based on the cutting-edge hardware and Huawei Versatile Routing Platform (VRP) software, the S5700-EI provides a large switching capacity and high-density GE ports to implement 10 Gbit/s upstream ...

The S6700 has industry-leading performance and provides up to 24 or 48 line-speed 10GE ports. It can be used in a data center to provide 10 Gbit/s access to servers or function as a core switch on a ...

This document provides instructions for configuring Huawei switch commands. It discusses starting a configuration session, viewing different configuration modes, ...

Commands provided in this section and all the parameters in the commands are supported by all switch models by default, unless otherwise specified. For details, see specific commands.

Access the switch console or CLI: Connect to the switch console using a terminal emulator or access the switch CLI remotely through SSH or Telnet. Enter privilege mode: If you're ...
