

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed for data centers and campus networks. ...

Behind every seamless video conference, every instant cloud backup, and every real-time IoT sensor update lies an unsung hero: the Huawei aggregation switch. As enterprises juggle ...

Huawei CloudEngine (CE) series switches are high-performance cloud switches designed for next-generation data centers and high-end campus networks.

Aggregation switches set up stacks to implement device-level backup and increase the interface density and forwarding bandwidth. A standalone AC is deployed in off-path mode. It centrally manages APs ...

Brand-new modular switches featuring an innovative backplane-free Clos architecture, offering a variety of card options to support enterprises in transitioning to 400GE.

Aggregation switches set up stacks to implement device-level backup and increase the interface density and forwarding bandwidth. Before deploying QoS, ensure that the campus network is connected.

The S5700-EI series gigabit enterprise switches (S5700-EI) are next-generation energy-saving switches developed by Huawei to meet the demand for high-bandwidth access and Ethernet multi-service ...

Designed for scenarios such as data centers, enterprise campuses, and enterprise private lines, making networks more simple, smart, open, and secure, as well as accelerating enterprise service ...

These switches accommodate cloud data center, large metro core, aggregation, edge aggregation, and access networking requirements. Huawei also provides the Cloud Fabric Data Center Network ...
