

# Huawei Layer 3 Core Switch for Security Systems

eKitEngine S530 series switches have two dedicated stack ports, which do not occupy service port bandwidth or require additional stack cards, making them suitable for multiple scenarios.

The S9300 uses Huawei's intelligent multilayer switching concept to provide high-performance L2/L3 switching services as well as rich network applications such as High-Definition (HD) video, elastic ...

Discover high-performance Huawei Layer 3 network switches with PoE, VLAN support, and advanced enterprise features. Explore models with 24 to 48+ ports, gigabit speeds, and reliable security.

Based on the next-generation high-performance hardware and software platform, Huawei eKitEngine S310 series switches stand out with features such as intelligent stack (iStack), flexible Ethernet ...

The S5700-SI provides multiple security measures to defend against Denial of Service (DoS) attacks, and attacks against networks or users. DoS attack types include SYN Flood attacks, Land attacks, ...

With 48 x Gigabit Ethernet ports and 4 x 10GE SFP+ uplinks, it supports ...

The Huawei Layer 3 Switch isn't an upgrade--it's a fundamental rewrite of network logic. By collapsing routing into the switch layer, it vaporizes bottlenecks, fortifies security with segmented ...

Positioned perfectly as an Aggregation Switch or Core Switch, the S6730-H delivers scalability, security, and cost-effectiveness for modern digital infrastructures. These models deliver a ...

The S5730-SI supports multiple Layer 3 features including OSPF, IS-IS, BGP, and VRRP, meeting enterprises' requirements on access and aggregation service transmission and enabling a variety of ...

This switch features diversified security control, rich management methods, higher performance, and extended service processing capabilities. Therefore, it can be widely used as a core or aggregation ...

Built on Huawei's robust Versatile Routing Platform (VRP), it integrates powerful Layer 3 features, enhanced security, flexible stacking, and simplified maintenance.
