

Optical fiber patch cords/pigtails are the basic components used in optical fiber communication systems. A wide variety of jumpers composed of different connector types and different types of ...

This OS2 fiber patch cable is ideal for connecting 1G/10G/25G/40G/100G/400G Ethernet connections. It is best suited for long distance application and can transport data for up to 10km at 1310nm, or up to ...

Product features Protection design: The E2000 connector has a spring valve and a push-pull locking device to ensure a stable connection and prevent the entry of pollutants. Efficient transmission: Low ...

Our fiber optic patch cords come in both single-mode and multimode options. Each is built with a high-precision zirconia ceramic ferrule, pre-polished to PC, UPC, or APC standards with a convex ...

The E-2000 fiber optic cable system is to address the customers' highest expectations. The E-2000 fiber cable assemblies result in super performance on insertion loss as well as exceptional repeatability. ...

The E2000 connectors utilize standard UPC (Ultra Physical Contact) single-mode connectors. These E2000-E2000 Singlemode fiber optic patch cables are suitable for carrier equipment, ...

The E2000* connectors used are featured with spring-loaded shutters that open when engaged and close when disengaged protecting ferrules from dust and scratches. The connector's push-pull ...

LongXing supplies top quality optical fiber patch cord with very competitive prices, every single piece of patch cord is tested in the workshop before delivering to the customer.

HJ E2000 APC Fiber Optic Patch Cord Singlemode Duplex LSZH PVC Low Loss FTTH FTTX Data Center Jumper Custom Length

e2000 patch cord is a type of fiber optic patch cord that features E2000 connectors on both ends, widely used for high-speed data transmission.
