

Industrial-grade Ethernet Switches are specifically designed to connect devices in network environments that are subject to extreme operating temperatures of -40°C to 75°C, vibrations, and shocks.

WAGO's industrial switches feature a redundant power supply and switchable ring redundancy providing uninterrupted data communication. With a short recovery time of under 20 ms, the Xpress Ring ...

With an extensive selection of port options and wide operating temperature range, our reliable and rugged unmanaged Ethernet switches are ready to meet the demands of industrial data acquisition, ...

3onedata Industrial Ethernet Switches are geared to demanding applications in harsh industrial environments, essential for building a safe, reliable, and easy to manage industrial Ethernet network.

Industrial automation engineers have created industrial Ethernet switches by adapting Ethernet to accommodate the stringent, deterministic-network requirements of manufacturing automation ...

Our network switches process VLAN-tagged packets by reading both source and destination data without altering or dropping them--ensuring reliable delivery of critical information across industrial ...

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

With high-speed 10-GE uplinks, high-wattage PoE options, ultra-low jitter, advanced network security features, and device-to-cloud performance monitoring with the Cisco ThousandEyes agent, these ...

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

Browse our industrial unmanaged switches, industrial managed switches, power over Ethernet PoE options, and din rail mountable industrial Ethernet switches below. Our solutions allow for a ...
