

Industrial Optical Module Manufacturing Plant

We supply various kinds of optical components and lens assemblies for various industries in US, Canada, Australia, Asia and Europe. These industries include telecommunications, lighting, industrial ...

Built on decades of photonics innovation, Lumentum delivers high-performance lasers, modules, and optical subsystems that enable scalable, energy-efficient data center connectivity, ...

Discover how we power manufacturing and research across the world's most innovative markets -- from smartphones to EVs, from semiconductor wafers to medical diagnostics.

Partnering with Fabrinet, a global manufacturer of highly precise optical products, Nokia will produce multi-rate optical modules at Fabrinet's state-of-the-art facility in Santa Clara, California. ...

Optopax offers full-service OEM manufacturing for custom camera modules, with support for both chip-on-board (COB) and packaged image sensors, giving our clients the flexibility to balance ...

Corning is opening three new advanced manufacturing plants in the U.S. dedicated entirely to optical technologies for Nvidia.

We manufacture custom Optical Assemblies with precision, delivering high-performance systems tailored to meet your exacting standards.

Lumentum Holdings Inc of San Jose, CA, USA (which designs and makes optical and photonic products for optical networks and lasers for industrial and consumer markets) is to fund a ...

High-quality optical components and modules (no sales in Germany) for lithography lasers and special microscope lenses for wafer inspection: this is how ZEISS SMT, as an OEM supplier (Original ...
