

Maple Systems industrial ethernet network switches are built with industrial grade components, tested in-house, and certified for reliable operation in harsh environmental conditions.

Additionally, with multiple industrial certifications, our industrial Ethernet solutions not only provide the highest network reliability for Ethernet hubs and network switches to meet current industrial ...

An industrial switch is a network communication device specifically designed for industrial environments, facilitating efficient and reliable data transmission between devices in industrial ...

Our integrated circuits and reference designs help you to build an industrial grade communication switch for harsh environments, long service life and the ability to protect the network against attacks.

Compatible with EtherNet/IP and PROFINET industrial network protocols, Unmanaged Ethernet Switches enable fast and simple "plug and play" network upgrades and are available in IP67-rated ...

Discover what industrial grade Ethernet switches are, their unique features, real-world applications, key differences from regular switches, and ...

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

WAGO's switch portfolio provides scalable Ethernet network infrastructure with excellent electrical and mechanical performance. These rugged devices are designed for industrial use and are fully ...

Discover what industrial grade Ethernet switches are, their unique features, real-world applications, key differences from regular switches, and where to buy.

Built to endure the demanding conditions of factories, transportation infrastructure, grid substations, and other harsh environments, Cisco Industrial Ethernet switches come in a wide range of form factors to ...
