

We manufacture fully customized racks designed to support cold aisle solutions that align with your airflow requirements and energy efficiency goals. With NexGen's precision manufacturing, you'll have ...

Cool Shield(TM) products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center ...

Our modular systems provide flexible, secure separation between hot and cold aisles or controlled zones to maintain optimal environmental performance.

Upsite AisleLok containment solutions and portfolio of aisle airflow management products are designed to improve cooling effectiveness and efficiency by enhancing airflow management.

MRS, as a leading cold aisle containment manufacturers, is at the top of this technology in providing quality, customizable solutions designed to meet the more-than-everyday demands of today's data ...

In addition to energy savings and improved operational efficiency, cold aisle containment can also improve aesthetics and reduce noise outside and around the data center. Karis offers several options ...

Find out how to improve your data center infrastructure efficiency, using the cold aisle containment or hot aisle containment solutions from Vertiv.

By maintaining consistent, predictable temperatures, cold aisle containment minimizes thermal stress and reduces the risk of overheating, improving reliability and extending equipment lifespans.

To reduce energy costs and noise in the data center, you must isolate the hot and cold airflow through each rack and the entire room. Austin Hughes's latest innovation in Cold Aisle Containment has ...

Following a collaborative, customer-driven approach, we provide the best containment options for each project. Whether ceiling hung or integrated with aisle structure, our containment solutions are ...
