

Home » Press Releases Tower Semiconductor Teams with NVIDIA to Advance AI Infrastructure with 1.6T Data Center Optical Modules Tower's advanced Silicon Photonics platform ...

Powered by optical filters from Chroma Technology, the project gives students access to low-cost multispectral imaging tools while building hands-on experience in spectroscopy, image analysis, ...

Astech-Optics is a representative company to the Israeli market, expertise in the field of optics & electro-optics. We represent some of the leading world-wide manufacturers.

TechInvest Holding AG, the parent company of SCANLAB GmbH, is taking a 25 percent stake in the Israeli firm HOLO/OR Ltd. They are recognized as a pioneer ...

Optical elements, up to Ø50cm, made of a vast variety of materials (glasses, Ge, Si, ZnS, ZnSe, CaF₂, As₂Se₃, Sapphire and more) with coatings for all spectral ranges (VIS, NIR, MWIR, FLIR)

ARIEL is engaged with most Israeli major defense integrators, and has developed a laser module to deflect anti-tank guided missiles, as well as laser countermeasure solutions, laser illuminators and ...

Tritech offers a wide range of optical components, solutions and systems to the Medical, Industrial, Military, Communication and Automotive market.

TechInvest Holding AG, the parent company of SCANLAB GmbH, is taking a 25 percent stake in the Israeli firm HOLO/OR Ltd. They are recognized as a pioneer in developing diffractive optical ...

Tower Semiconductor, the Israeli chipmaker, is stepping into the spotlight of the AI infrastructure boom through a major collaboration with Nvidia. The company announced it is scaling ...

Since 1983, when our founder, Ephraim Rubin, identified a need for specialized optical components in Israel, Rosh Electroptics has grown into one of the country's leading distributors of advanced electro ...
