

The Bynet LC UPC Duplex High-Low Fiber Adapter is a premium passive optical component designed for high-accuracy LC-to-LC connections in optical communication networks.

LC Adapters are essential optical connectors used to join LC-terminated fiber optic cables with minimal signal loss. Designed for high-density network environments, these adapters ensure precise ...

The Lucent connector, commonly known as the LC connector, is a small form factor type of fiber optic connector used in high-density aerospace applications. Our LC connectors are engineered for ...

Fibertronics offers a variety of LC fiber optic adapters. These are also known as LC fiber optic mating sleeves and are available in both single mode and multimode variants with either a zirconia sleeve or ...

The LC Adapters are available in simplex, duplex, and quad forms for MM, SM and APC applications. WCFO's LC adapters feature precision zirconia and phosphor bronze alignment sleeves and precise ...

Available in LC, SC, FC, and ST formats--both simplex and duplex variants--these adapters are crafted with high-quality ceramic sleeves to ensure accurate alignment and long-term durability. Ideal for ...

Our single mode fiber adapters feature ceramic sleeves for precision alignment and our multimode fiber adapters are built with bronze alignment sleeves for extra durability. Our fiber couplers are designed ...

LCUPC Fiber Adapters are Pre-Cleaned & Extend LCUPC Optical Cables. Connects SM Simplex or Duplex Cables. Need help?

Belden offers standalone Fiber Adapter modules for use in a variety of applications. Connector types include LC Duplex, SC Simplex, ST and MPO in multimode and singlemode for up to 12 fibers.

Mouser offers inventory, pricing, & datasheets for LC Adapters Fiber Optic Connectors.
