

For nearly 30 years, RPMC Lasers has provided the widest selection of semiconductor laser diode wavelengths and packages for various applications in the Defense, Medical, Industrial, & Research ...

Illuminate your applications with the Lasermate T98H-P1 Series 980nm fiber-coupled laser diode, delivering up to 1300mW output via a 100um core multimode fiber. Perfect for laser pumping, ...

This standardised approach results in no development costs, ...

Macro channel cooling, with water channel routed close to diode bars for high efficiency cooling, which simplifies coolant filtration requirements and improves cooling efficiency.

Find the right laser diode with just a few clicks. Just select your specifications in the search mask and you get an instant overview of all the laser diodes that meet your requirements.

Packaged single-emitter diodes with high power and excellent reliability. Ideal for fiber amplifiers, laser pumping, material processing, and solid-state laser pumping applications. Customize your ...

Laser Diodes, Modules Laser Diodes and Modules are semiconductor devices that can emit a beam of high intensity focused radiation, typically in the infrared, visible or ultraviolet wavelength ranges of the ...

We also offer optoelectronics mounts that directly accommodate many of our laser diode package options. The Laser Diode Selection Guide provides a comprehensive list of all laser diodes available ...

20w high quality diode laser module specially designed for ACMER P1/P2 laser ...

20w high quality diode laser module specially designed for ACMER P1/P2 laser engraving machine. Releases powerful laser power and is easy to install. This laser module is an upgraded version of the ...

This standardised approach results in no development costs, shortened lead times and reliable laser diode modules in industry standard packages. Our flexible business model allows for customisation ...
