The Derna dam collapses were the catastrophic failures of two dams in Derna, Libya, on the night of 10-11 September 2023, in the aftermath of Storm Daniel.

The plan will initially focus on supporting grassroots initiatives in southern Libya, which is a region critical to long-term stability in Libya, the broader Sahel region, and Coastal West Africa.

Libya's economy is heavily dependent on oil and gas, which constitute 97% of exports, more than 90% of fiscal revenues, and 68% of GDP. In 2023, as the country recovered from the 2022 recession, ...

This QSFP-DD dual pluggable EDFA booster amplifier offers a optical input range and provides a +20dB nominal gain to a C-Band DWDM link.

OverviewBackgroundCollapseDamage and casualtiesAftermathReactionsNotesThe Derna dam collapses were the catastrophic failures of two dams in Derna, Libya, on the night of 10-11 September 2023, in the aftermath of Storm Daniel. The collapse of the Abu Mansour Dam and the Derna Dam released an estimated 30 million cubic meters (39 million cubic yards) of water, causing flooding downstream as the Wadi Derna overflowed its banks. The floods partially destroyed the city of Derna. The offic...

It provides a QSFP-DD-to-QSFP-DD copper direct-attach solution. They are suitable for very short links and offer a cost-effective way to establish a 400-Gigabit link between QSFP-400G ports of ...
