

Modular Intelligent Electronic Patch Panel

Simplify network installations with our modular patch panel with front access faceplate. This panel offers a recessed design and labeling feature for easy identification.

The patch panel features high-density 1U, 24 port, modular design, with modules installed as needed, compatible with all types of shielded, unshielded information modules, and detached in single unit for ...

It is available for quick installation cabling by automatic cutting wire tool of individual modular jack. This 1U panel is used for 19" standard rack with ERI Cat.6, Cat.6A Modular jack.

This modular system is ideal for multimedia applications, providing flexibility to customize any installation. All patch panels mount to standard EIA 19-inch or 23-inch racks with optional extender ...

MapIT G2 integrates the powerful combination of innovative Smart Patch Panels, user-friendly Master Control Panels and EagleEye(TM) software to provide real-time tracking and reporting of network-wide ...

AMPCOM patch panels offer high-density copper & fiber termination for data centers, offices, and AV systems. Modular design, shielded ports, and easy installation for reliable signal routing.

CommScope offers Intelligent Copper Panels for automated infrastructure management solutions that enable you to monitor, manage and optimize your network connectivity in real time

Leviton offers the industry's largest selection of high-quality copper and fiber optic patch panels to support the latest technologies and provide ideal configurations for unique applications.

Infinique's Intelligent Patch Panel Solution for Copper and Fiber Structured Cabling System provides an automated and versatile remote management of ICT infrastructure.

This complete & intelligent-ready physical layer management system uses RFID technology for wireless detection of individual patch cords & real-time monitoring of unintended physical changes in network ...
