

Optical grating-based spectrum analyzer with lab-grade spectral performance in a module for the MAP Series

This small form-factor pluggable (SFP) module is engineered for seamless integration with compatible MOXA industrial Ethernet switches and provides reliable, high-performance connectivity in ...

Moxa's small form-factor pluggable transceiver (SFP) Ethernet fiber modules for Gigabit Ethernet provide coverage across a wide range of communication distances.

For horizontal shorter-length run, the Fastcabling modules are available with single mode fiber to suit your fiber connectivity applications. It can transmit data up to 20 KM with 1.25 Gigabit network speed.

Equip with a long wavelength single mode optical transmitter and receiver, this SFP is suitable for single mode fiber systems. It is targeted at medium to long-reach transmission, including the campus, ...

Compatibility in your network is everything, and this industrial SFP Transceiver Module delivers. Use it with any Intellinet SFP equipped network switch or any ...

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.

Compatibility in your network is everything, and this industrial SFP Transceiver Module delivers. Use it with any Intellinet SFP equipped network switch or any other Multi Source Agreement (MSA) ...

TESTED FOR COMPATIBILITY: Hot-swappable in MSA Compliant routers and switches; DDM support reports the transceiver's status to most SNMP network management tools.

Moxa's small form-factor pluggable transceiver (SFP) Ethernet fiber modules provide 10 Gigabit, Gigabit, and Fast Ethernet in order to ensure coverage across a range of distances.
