

Find your multifunction protection relay easily amongst the 50 products from the leading brands (Blue Jay, DOSSENA, ABB, ...) on DirectIndustry, the industry specialist for your professional purchases.

GE Vernova's Protection, Control, and Metering solutions deliver precise, high-performance automation for today's evolving grid. From advanced relays to multifunction meters, our portfolio helps utilities ...

REX610 is a member of the renowned Relion® protection and control family of relays, building on ABB's strong heritage of freely configurable multifunctional relays and many proven protection algorithms.

Eaton's protective relays provide you with unique microprocessor-based devices that eliminate unnecessary trips, isolate faults, protect motors and breakers, and provide system information to help ...

Protect critical components in your power system with a wide range of SEL protective relays covering applications and use cases from low to high-voltage protection.

Discover our range of products in Protection Relays: PowerLogic(TM) P3 Protection Relays, Sepam series 80, Vamp Arc Protection Relay System, PowerLogic(TM) P5 Protection Relays, PowerLogic(TM) A1 and ...

The MFR 1 Series is a family of industrial grade protective relays that offer multiple protective features in a single package. Using a digital processor to measure true RMS values enables a high degree of ...

Fast, simple and multi-functional, the programmable MTR-4P protection relay offers up to 13 different protection functions in six different logical categories: Voltage, current, frequency, asymmetry, load ...

Our devices cover a wide range of applications and offer features such as slim design, embedded cybersecurity and IoT connectivity. Read frequently asked questions about our universal ...

The GRD200 multi-function IED has been designed to provide a comprehensive protection and control solution for distribution feeders, while also being applicable as a back-up protection for transmission ...
