

Pottron Technology Co., Ltd., provides solution and products of optical transceivers, optical engine and components, with full functions from research, development, manufacture to sales.

Responsible for the production of golf's leading OEM brands, EPON made it possible for custom club makers to fit golfers with the best forged products in the world.

Our expanded portfolio now includes devices that not only deliver high-ARPU symmetrical broadband but also integrate key home network services in one box.

Semtech offers one of the industry's most comprehensive portfolios of optical transceiver IC products ranging from 100Mbps to over 100Gbps, supporting key industry standards such as Fibre Channel, ...

G.984.5 (2007) provided US options: regular: 177;50, reduced 177;20 (shown), and narrow 177;10 and Enhancement Bands 1 (not shown, in water peak area) and 2 (shown) for DS and US. 1G EPON ...

The data rate of XG-PON is 2.5Gbit/s for uplink and 10Gbit/s for downlink, and the line encoding is NRZ (non-return to zero) encoding. The technology used in 10G GPON for multi-tasking ...

About us iXBlue Photonics produces specialty optical fibers and Bragg gratings based fiber optics components and provides optical modulation solutions based on the company lithium niobate (LiNbO ...

The commercial PON technologies have experienced three generations of development, among which GPON and EPON have been commercially deployed on a large scale. At present, 10G-EPON and ...

This report lists the top Passive Optical Network (PON) Equipment companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and ...

Leading manufacturer of high-quality GPON OLT, EPON OLT, ONU devices, and fiber optic equipment for telecom operators, enterprises, and distributors worldwide. Your trusted partner in Passive ...
